Q3 may be of the type disclosed in my U.S. Patent No. 3,272,347 dated September 13, 1966 which was based on an application filed in 1963 that was related to my application Serial No. 477,467 filed December 24, 1954. Depending on sizes of the chamber 12 and the manipulator, the automatic manipulator 47' as disclosed in my earlier patent can be installed in chamber 12 if large, or if the chamber 12 is small, the manipulator 47' can be installed outside or exteriorly of the chamber and the workpiece grasping jaws may reach into the chamber when the door 12' is open. The manipulator may thus remove a treated work piece and replace that work piece with the next work piece to be treated. ~~my~~
